Disposal of Garbage to Prevent Disease

英語版

Disposal of household garbage

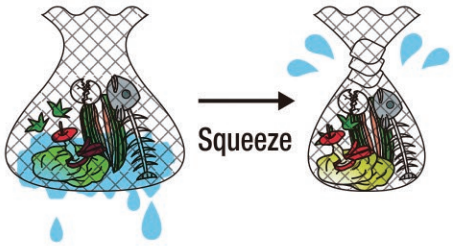
Things to keep in mind when disposing of household garbage

1 Tie garbage bags tightly to seal them.

2 Remove air from garbage bags.

This prevents garbage bags from bursting inside collection vehicles.

3 Drain kitchen garbage

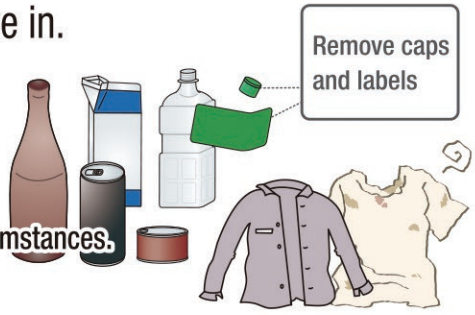


4 Reduce household waste.

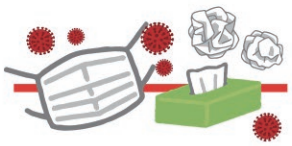
For example, reduce the amount of food waste (loss).

5 Separate and dispose of garbage according to the rules of the town you live in.

When an illness is prevalent, rules may be different from usual.
Littering is prohibited under any circumstances.



Disposal of face masks and tissues



1 Put masks and tissues in a bag.

2 Put that bag in your burnable garbage bag, tie it tightly, and dispose of it.

3 After disposal, wash your hands thoroughly with soap.

Saga City Recycling Society Promotion Division (Saga City Waste Incineration Plant) ☎ 0952-30-2430 ✉ junkan@city.saga.lg.jp

Points to Keep in Mind When Living in Japan

1 Wear a face mask when a disease such as COVID-19 or influenza is prevalent.

▶ **This measure can prevent yourself from getting sick.**

2 Wear a face mask if you are sick.

▶ **This is etiquette to avoid infecting others.**

3 Take your own garbage home.

▶ **It's helpful to keep one bag in your bag.**
