

Vaccination Intervals ~Be aware of vaccination intervals! ~

In order to ensure the safety of your child, as well as the effectiveness of the vaccination, it is important to follow the interval guidelines for various vaccines. After your child receives a vaccine, there must be a window of time before they receive a different vaccine. (Note: If they are getting the second round of the same vaccine, the time intervals may vary slightly from this guide.)

Live Vaccine

Wait at least:

Inactive Vaccine
